For: Rasterizer Edge Function (Confirmation No. 8706)

INTERVIEW SUMMARY

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

Two interviews were conducted on this case, the first on 5-18-05, the second on 7-18-05.

During the 5-18-05 interview, Applicant and Examiner discussed the 112 rejection focusing on whether “symmetry” and “reduced set” were sufficiently described in the specification. Examiner said he would consider Applicant’s remarks.

Next the art rejections were discussed. Applicant took the position that the cited references, particularly Pineda, did not teach or suggest the claimed limitations. Examiner said he would consider Applicant’s remarks.

The interview did not result in agreement.

During the interview of 7-18-05, Applicant and Examiner discussed the Pineda reference. Applicant submitted that the teaching of Pineda did not teach the

claimed limitations (claim 1 was discussed), while Examiner disagreed, asserting that Pineda did teach a “reduced set” as claimed.

No agreement was reached.
